Experiment 1
Install & Setup Terraform

Aim

Install & Setup Terraform

Steps

1. Browse to the Download Terraform page & download Terraform & install the one available for your machine & verify the installation.

```
→  ~   terraform -v
Terraform v1.7.0-dev
on linux_amd64

Your version of Terraform is out of date! The latest version
is 1.7.0. You can update by downloading from https://www.terraform.io/downloads.html
→  ~  []
```
